

Bendrigg Lodge Learning

Preparation for our Learning Away experience at Bendrigg Lodge in Cumbria took place on Tuesday afternoons in our Project Learning time. Pupils worked in teams and took part in various activities linked to the experience of planning for and being away from home on a week of outdoor adventure.

Teams discovered where they were going, into a different country called England, and how long it would take to get there. A calendar was used to countdown the days to the trip. Pupils learned what to wear for going out and taking part in adventure activities.

Some pupils put up tents and some learned how to put on a duvet cover.

Pupils were involved in cooking and tasting new foods and making sandwiches.

A diary was designed to record the events and activities of the time away. A lot of our time was spent outside the classroom which included visits to Calderglen Park.
